A LETTER FROM WINDTREE'S CHIEF EXECUTIVE OFFICER

Dear Fellow Shareholders:

2021 was a tremendous year for us. We made significant progress across multiple fronts, creating a series of milestones and setting up 2022 to be another eventful year. As we turn the page from one year to the next, and continue on with so many activities at Windtree, I wanted to take a moment to provide you with a quick review of our advancements and progress to date and provide you with some insight into our outlook for the upcoming year.

I am very pleased to report on the success our management team has had in achieving upon our four core areas of focus set forth in 2021, including:

1) Successfully Executing a Positive SEISMic Study with Istaroxime in Early Cardiogenic Shock

Patients in cardiogenic shock due to heart failure have decreased cardiac output with extremely low blood pressure resulting in a critical, often fatal, reduction of blood flow and perfusion to the body, including vital organs. We believe istaroxime may fulfill a significant unmet need in early cardiogenic shock based on the profile observed in our Phase 2 clinical studies in acute heart failure (AHF), which demonstrated that istaroxime improved systolic blood pressure and cardiac function. Additionally, there could be a potentially attractive regulatory pathway, so we began a program that started with patients in early cardiogenic shock (Society for Cardiovascular Angiography and Interventions (SCAI) Stage B shock). Executing the study was our top deliverable. While the global pandemic had a significant impact on hospital staff and, in particular, intensive care units where our trial was conducted, I am very proud of the team's ability to problem-solve, make smart decisions and move with urgency in execution resulting in successfully completing the trial in only a couple of months longer than pre-COVID projections. Most importantly, we were excited to announce the study met its primary endpoint in systolic blood pressure profile over six hours with the istaroxime treated group performing significantly better compared to the control group. Based on the importance of the trial, the study was accepted for a "late-breaker" presentation at the upcoming European Society of Cardiology Heart Failure Conference in Madrid, Spain where the data and details will be presented. The Company is excited to be holding a conference call for investors from Madrid on Monday, May 23rd to present the study results and discuss the path forward. The positive results support the Company's development and potential regulatory pathway in cardiogenic shock.

2) Study KL4 Lucinactant in COVID-19 Related ARDS and Lung Injury

We executed a Phase 2 clinical trial studying KL4 surfactant in COVID-19 associated lung injury and acute respiratory distress syndrome (ARDS). In the first quarter of 2022, we announced results for the Company's Phase 2 single-arm study of lucinactant (KL4 surfactant) designed to evaluate the safety and tolerability of lucinactant delivered as a liquid via the endotracheal tube in 20 patients who were mechanically ventilated due to COVID-19 associated lung injury and severe ARDS. The study demonstrated that intratracheal administration of reconstituted lyophilized lucinactant was generally safe and well tolerated with stable to improved oxygenation and other physiological parameters after dosing. This supports the feasibility of this approach in developing a potential treatment for critically ill patients with ARDS due to COVID-19 and other causes. For all areas associated with the KL4 lucinactant platform, including AEROSURF for treating respiratory distress syndromes (RDS) in pre-term infants, we have focused our efforts to support the efforts of Lee's (HK) in Asia to advance the platform. Additionally, to support the future development of AEROSURF and our lyophilized KL4 surfactant in markets outside of Asia, we are currently pursuing one or more licensing agreements and/or other strategic opportunities in order to focus our team and resources on the multiple acute cardiovascular opportunities in our portfolio.

3) Advancing Study Start Up Activities for Istaroxime in Acute Heart Failure

Based on the positive Phase 2a and Phase 2b clinical trial results in AHF, and given the significant unmet need, market size and opportunity, this program is a fundamental program for Windtree. The FDA has also granted Fast Track designation for istaroxime for the treatment of AHF. We advanced a number of important activities to enable this trial, including completing a 14-day dog toxicology study, clinical protocol development and working with the top heart failure expert advisors from the United States, Europe, and Asia to be in a position to start the next AHF trial after obtaining adequate funding.

4) *Strengthening the Team Capabilities and Business*

In setting aggressive objectives and acting upon multiple clinical and business development opportunities simultaneously, it is critical to have a world-class team, management and company leadership, especially in a small, lean company such as Windtree. We strengthened our management team by appointing Diane Carman as our new General Counsel. We also strengthened clinical operations and business development areas and reorganized to lower costs and enable investment in areas associated with delivering upon milestones.

Looking Forward

Our talented team is making great progress and delivering important milestones in the midst of unprecedented times. Markets are proving to be very difficult and impacting our value given the uncertainty in the world today. We have shaped our strategy to be mindful of the current market conditions and focused on activities and clinical advancement that we believe represent the best return on investment and potential value generation for our shareholders.

We are looking forward to presenting the additional results from our positive SEISMic study results in early cardiogenic shock later in May. Cardiogenic shock represents a significant opportunity for us as an unmet need in critical patients who lack adequate therapies and offers a development pathway that we believe can be a potentially faster way to commercialization delivering on an unmet medical need. By choosing to study early cardiogenic shock and now delivering positive results, we have created optionality for the Company as well as istaroxime advancement, its resourcing needs and partnership opportunities with two complementary but unique development pathways: early cardiogenic shock and AHF.

Given the progress and positive results with istaroxime in cardiogenic shock, our plans for the remainder of 2022 and into 2023 are:

- ✓ **Execute the SEISMic Extension Study:** With the positive results in early cardiogenic shock, this study is designed to advance the program with longer istaroxime dosing as well as evaluate a dose titration, more fully illuminate the effects and potential benefits associated with SERCA2a activation and support our regulatory strategy for Phase 3 with istaroxime. We plan that the trial will study up to 30 patients and take about six months of execution with data expected in Q1 2023.
- ✓ **Study SCAI Stage C Patients:** While a smaller group than SCAI stage B that was studied in our SEISMic trial, the strategy is to gain experience in more severe, SCAI stage C patients where low systolic blood pressure and lack of cardiac function causes more severe consequences in order to support both regulatory, development and commercial strategies. We plan that the trial will study up to 20 patients and take about six months of execution with data expected in late Q1 or early Q2 2023.
- ✓ **Engage with Regulatory Authorities for Cardiogenic Shock Advancement:** We will be meeting with regulatory authorities this year and next in order to further define a potential development path to approval for cardiogenic shock. We believe that with the positive SEISMic Phase 2 study and the additional clinical work on dose optimization, drug characterization and experience with SCAI stage C patients, we could be in a position for an end of Phase 2 meeting and start Phase 3, which is our priority objective for 2023.
- ✓ **Execute Business Development Activities to Support Acute Heart Failure and our Non-Dilutive Funding Objectives:** Our heart failure platform consisting of istaroxime with two developing indications, along with our oral SERCA2a activators in pre-clinical development for chronic heart failure, create partnership and licensing opportunities. In particular, the AHF program would benefit greatly from the non-dilutive resourcing and the scale and technical resources a larger company would bring to the effort.

The next several months and coming year will see clinical execution on multiple fronts and a number of important milestones that can be catalysts for growth and value generation. The team has an unwavering commitment to deliver important therapies for underserved, critical patients and the success that comes from advancing the programs and creating new therapies. I look forward to keeping you updated on our progress.

Best Regards,
Craig

Our Director Nominees

You are being asked to vote on the election of five director nominees, each to serve until our 2023 Annual Meeting of Stockholders. The number of members of our Board of Directors, or the Board, is currently set at six members. Dr. Evan Loh, a current member of our Board, has advised us that due to other professional commitments, he will not stand for re-election at the Annual Meeting, and his service as a member of our Board will end effective as of the Annual Meeting. As a result, we intend to reduce the size of our Board from six to five, effective as of the Annual Meeting. We extend our deepest gratitude to Dr. Loh for his distinguished service to our Board. We expect that Dr. Loh will continue to serve as an outside advisor to the Board.

The term of office of our directors expires at the Annual Meeting. We are nominating Craig E. Fraser, James Huang, Daniel Geffken, Robert Scott, M.D., and Leslie J. Williams for election at the Annual Meeting to serve until the 2023 Annual Meeting of Stockholders and until their successors, if any, are elected or appointed, or their earlier death, resignation, retirement, disqualification or removal. Directors are elected by a plurality of the votes cast by our stockholders at the Annual Meeting. The five nominees receiving the most FOR votes (among votes properly cast in person or by proxy) will be elected. If no contrary indication is made, shares represented by executed proxies will be voted FOR the election of Messrs. Fraser, Huang and Geffken, Dr. Scott and Ms. Williams. Each nominee has agreed to serve as a director if elected, and we have no reason to believe that any nominee will be unable to serve.

QUORUM

We must have a quorum to conduct business at the Annual Meeting. A quorum consists of the presence at the meeting either in person or represented by proxy of the holders of a majority of the outstanding shares of our common stock entitled to vote. For the purpose of establishing a quorum, abstentions, including brokers holding customers' shares of record who cause abstentions to be recorded at the Annual Meeting, and broker non-votes are considered stockholders who are present and entitled to vote, and count toward the quorum. If there is no quorum, the holders of a majority of shares attending the Annual Meeting in person or represented by proxy or the chairman of the Annual Meeting may adjourn the meeting to another date.

PROXY SOLICITATION COSTS

We pay the cost of soliciting proxies. Proxies will be solicited on behalf of the Board by mail, telephone, and other electronic means or in person. Directors and employees will not be paid any additional compensation for soliciting proxies. We may also reimburse brokerage firms, banks and other agents for the cost of forwarding proxy materials to beneficial owners.

BOARD OF DIRECTORS

Our Board has nominated Craig E. Fraser, James Huang, Daniel Geffken, Robert Scott, M.D., and Leslie J. Williams to be elected as directors at our Annual Meeting to hold office until our 2023 Annual Meeting of Stockholders.

Our Board is the Company's ultimate decision-making body, except with respect to those matters reserved to the stockholders. Our Board selects the members of our senior management team, who in turn are responsible for the day-to-day operations of the Company. Our Board acts as an advisor and counselor to senior management and oversees its performance.

Our Board currently consists of six directors. Dr. Loh has advised us that due to other professional commitments, he will not be standing for reelection at the Annual Meeting and his service as a member of our Board will end effective as of the Annual Meeting. As a result, we intend to reduce the size of our Board from six to five, effective as of the Annual Meeting. Each of our remaining current directors has been nominated by our Board for re-election at the Annual Meeting for one-year terms that will expire at the 2023 Annual Meeting of Stockholders and until their successors, if any, are elected or appointed, or their earlier death, resignation, retirement, disqualification or removal. Each of the nominees has agreed to be named and to serve, and we expect each nominee to be able to serve if elected. If any nominee is unable to serve, the Nominating and Corporate Governance Committee, or the Governance Committee, of our Board will recommend to our Board a replacement nominee. The Board may then designate the other nominee to stand for election. If you voted for the unavailable nominee, your vote will be cast for his or her replacement.

BOARD STRUCTURE AND COMPOSITION

The Governance Committee of our Board is responsible for recommending the composition and structure of our Board and for developing criteria for Board membership. The Governance Committee regularly reviews director competencies, qualities and experiences, with the goal of ensuring that our Board is comprised of an effective team of directors who function collegially and who are able to apply their experience toward meaningful contributions to our business strategy and oversight of our performance, risk management, organizational development and succession planning.

Our Amended and Restated By-Laws, or Bylaws, provide that the number of members of our Board shall be fixed by the Board from time to time. Our Board is currently fixed at six members. Dr. Loh's service as a member of our Board will end effective as of the Annual Meeting and he is not standing for re-election. As a result, we intend to reduce the size of our Board from six to five, effective as of the Annual Meeting. The Governance Committee is responsible for identifying individuals that it believes are qualified to become Board members.

SELECTION OF CANDIDATES

Our Board identifies director nominees by first evaluating the current members of our Board who are willing to continue in service. Current members with qualifications and skills that are consistent with our Board's criteria for Board service are re-nominated. As to new candidates, our Board generally polls its members and members of our management for their recommendations. Our Board may also review the composition and qualification of the boards of our competitors and may seek input from industry experts or analysts. Our Board reviews the qualifications, experience and background of the candidates and, as discussed below, considers diversity in these areas among all the Board members. In making its determinations, our Board evaluates each individual in the context of the Board as a whole, with the objective of assembling a group that can best perpetuate our success and represent stockholder interests through the exercise of sound judgment. Any recommendations properly submitted by stockholders will be processed and are subject to the same criteria as any other candidates.

Each of the nominees included in this Proxy Statement and the enclosed proxy card(s) was recommended for inclusion by all of the members of our Board.

CRITERIA FOR BOARD MEMBERSHIP

The Governance Committee has identified certain criteria that it will consider in identifying director nominees. Important general criteria and considerations for Board membership include:

GENERAL CRITERIA

Ability to contribute to the Board's range of talent, skill and experience to provide sound and prudent guidance with respect to the Company's strategy and operations, including, but not limited to:

- ▶ Experience in leadership roles in the life sciences, healthcare or public health fields, including experience in the areas of development and commercialization of drug products;
- ▶ Personal integrity and ethical character, commitment and independence of thought and judgment;
- ▶ Capability to fairly and equally represent our stockholders;
- ▶ Confidence and willingness to express ideas and engage in constructive discussion with other Board members and management, to actively participate in the Board's decision-making process and make difficult decisions in the best interest of the Company;
- ▶ Willingness and ability to devote sufficient time, energy and attention to the affairs of the Company and the Board; and
- ▶ Lack of actual and potential conflicts of interest.

The Governance Committee also considers, on an ongoing basis, the background, experience and skills of the incumbent directors that are important to our current and future business needs, including, among others, the combined mix of experience in the following areas: technical, operational and/or economic knowledge of our business and industries; experience in operational, financial and/or administrative management; financial and risk management acumen; and experience in or familiarity with international business, markets and cultures, technological trends and developments, and corporate securities and tax laws. While a candidate may not possess every one of these qualifications, his or her background should reflect many of these qualifications.

BOARD COMMITMENT TO DIVERSITY

We do not have a formal policy regarding consideration of diversity in selecting the nominees for our Board; however, we seek to nominate Board members with a variety of complementary skills so that as a group, the Board will possess the appropriate talent, skills and expertise to oversee our businesses. As set forth above, the qualifications we look for in nominees for Board members (both new candidates and current Board members) include technical and operational knowledge of our business and industries; experience in operational, financial and/or risk management; familiarity with international business, markets and cultures; and expertise in the pharmaceutical industry, including research and development. Because not every nominee will possess all of these qualifications, our Board considers diversity in these factors when evaluating each nominee in the context of the Board as a whole.

The recently adopted listing rules of the Nasdaq Stock Market LLC, or Nasdaq, require each listed company to have, or explain why it does not have, two diverse directors on the board, including at least one diverse director who self-identifies as female and at least one diverse director who self-identifies as an underrepresented minority or LGBTQ+, or for smaller reporting companies, two female directors. Companies listed on Nasdaq must have at least one diverse director by 2023 and two diverse directors by 2026.

As presently constituted, the Board represents a deliberate mix of members who have a deep understanding of our business as well as members who have different skill sets and points of view. We are particularly proud of the gender and ethnic diversity of our Board, which, as noted below, includes one Board member who self-identifies as female, and two members of our Board who self-identify as ethnically diverse. The matrix below provides certain highlights of the composition of our Board members based on self-identification. Each of the categories listed in the matrix below has the meaning as it is used in Nasdaq Listing Rule 5605(f).

BOARD OF DIRECTORS (continued)
DIRECTOR CANDIDATES

On an ongoing basis, the Governance Committee considers potential director candidates identified on its own initiative as well as candidates referred or recommended to it by other directors, members of management, search firms, stockholders and others (including individuals seeking to join the Board). Stockholders who wish to recommend candidates may contact the Governance Committee in the manner described under the heading “Stockholder Communications to the Board” in this Proxy Statement. Stockholder nominations must be made according to the procedures required under our Bylaws and described in this Proxy Statement under the heading “Requirements for Submission of Stockholder Proposals for Next Year’s Annual Meeting.” Stockholder-recommended candidates and stockholder nominees whose nominations comply with these procedures and who meet the criteria referred to above will be evaluated by the Governance Committee in the same manner as the Governance Committee’s nominees.

CORPORATE GOVERNANCE AND RISK MANAGEMENT

We are committed to good corporate governance and integrity in our business dealings. Our governance practices are documented in our Amended and Restated Certificate of Incorporation, or Charter, our Bylaws, our Code of Business Conduct and Ethics, or the Code of Conduct, and the charters of the committees of the Board, or collectively, the Committees. Aspects of our governance documents are summarized below. You can find our charters for each Committee and our Code of Conduct on our website www.windtreex.com under “Investors—Corporate Governance.”

BOARD INDEPENDENCE

Our Board has undertaken a review of its composition, the composition of its committees and the independence of each director. Based upon information provided by each director, our Board has determined that each of our directors, with the exception of Mr. Fraser, do not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and is independent under the listing rules of Nasdaq. In making such determination, the Board considered the relationships that each such non-employee director has with the Company and all other facts and circumstances that the Board deemed relevant in determining their independence, including the beneficial ownership of our common stock by each non-employee director and the transactions involving them described in the section below titled “*Certain Relationships and Related Party Transactions.*”

BOARD LEADERSHIP STRUCTURE

Our Board is currently composed of six members. Dr. Loh’s service as a member of our Board will end effective as of the Annual Meeting and he is not standing for re-election. As a result, we intend to reduce the size of our Board from six to five, effective as of the Annual Meeting. In accordance with our Bylaws, each director is elected at our Annual Meeting of Stockholders. Each director holds office until our next Annual Meeting of Stockholders and until his or her successors have been duly elected and qualified, or until such director’s death, or until such director shall have resigned, or have been removed.

We believe that the Board should remain free to configure the leadership of the Board and the Company in a way that best serves the interests of the Company and its stockholders at the time and, accordingly, has no fixed policy with respect to combining or separating the offices of the Chairman of the Board and the CEO. We currently have separate offices of CEO and Chairman of the Board with Mr. Fraser serving as our CEO and Mr. Huang serving as Chairman of the Board. Our Board believes that the separation of the positions of CEO and Chairman of the Board reinforces the independence of the Board from management, creates an environment that encourages objective oversight of management’s performance and enhances the effectiveness of our Board as a whole.

BOARD COMMITTEES

Our Board has established various Committees to assist in discharging its duties: the Audit Committee, the Compensation Committee and the Governance Committee. Each member of our Committees is an independent director as that term is defined by the U.S. Securities and Exchange Commission and Nasdaq. The primary responsibilities of each of the Committees and the Committee memberships are provided below under the section entitled “*Board Attendance, Committee Meetings and Committee Membership.*”

Each of the Committees has the authority, as its members deem appropriate, to engage legal counsel or other experts or consultants in order to assist the Committee in carrying out its responsibilities.

RISK MANAGEMENT

One of the key functions of our Board is to oversee our risk management process. Our Board does not have a standing risk management committee, but rather administers this oversight function directly through our Board as a whole, as well as through various standing committees of our board of directors that address the risks inherent in their respective areas of oversight. In particular, our Board is responsible for monitoring and assessing strategic risk exposure and our audit committee has the responsibility to consider and discuss our major financial risk exposures and the steps our management has taken to monitor and control these exposures, including guidelines and policies to govern the process by which risk assessment and management is undertaken. While our Board maintains the ultimate oversight responsibility for the risk management process, its committees oversee risk in certain specified areas. For example:

- Our audit committee oversees management of financial reporting, compliance and litigation risks, including risks related to our insurance, information technology, human resources and regulatory matters, as well as the steps management has taken to monitor and control such exposures.
- Our compensation committee is responsible for overseeing the management of risks relating to our executive compensation policies, plans and arrangements and the extent to which those policies or practices increase or decrease risks for our company.
- Our nominating and corporate governance committee manages risks associated with the independence of our Board, potential conflicts of interest and the effectiveness of our Board.

EVALUATING BOARD EFFECTIVENESS

The Board is committed to continuous improvement and conducting annual self-evaluations as an important tool for evaluating effectiveness. The Board and each Committee conduct an annual self-evaluation of their performance and effectiveness.

CODE OF CONDUCT

We have adopted a Code of Business Conduct and Ethics that applies to our officers, including our principal executive, financial and accounting officers, and our directors and employees. We have posted the Code of Business Conduct and Ethics on our Internet website at www.windtreeix.com under the “Investors—Corporate Governance” tab. We intend to make all required disclosures on our website concerning any amendments to, or waivers from, our Code of Business Conduct and Ethics with respect to our executive officers and directors.

DIRECTOR ORIENTATION AND CONTINUING EDUCATION

Our director orientation programs familiarize new directors with the Company’s businesses, strategies, and policies, and assist new directors in developing the skills and knowledge required for their service on the Board. All other directors are also invited to attend the orientation programs. From time to time, management advises, or invites outside experts to attend Board meetings to advise, the Board on its responsibilities, management’s responsibilities, developments relevant to corporate governance and best corporate practices. Additionally, Board members may attend, and are encouraged to attend, accredited director education programs at the Company’s expense.

RESTRICTIONS ON THE HEDGING AND PLEDGING OF WINDTREE SHARES

Pursuant to our Insider Trading Policy, which applies to all officers, all directors and all of our employees and any of our subsidiaries, or the Covered Individuals, the Covered Individuals are prohibited from purchasing securities or otherwise engaging in transactions that hedge or offset, or are designed to hedge or offset, any decrease in the market value of any equity security of Windtree or any such subsidiary. Covered Individuals are also prohibited from selling “short” any securities of those companies.

Covered Individuals are further prohibited from holding any equity securities of Windtree or any such subsidiary in a margin account or otherwise pledging such securities as collateral for a loan.

These prohibitions also apply to family members living in the same household as Covered Individuals, as well as entities influenced or controlled by the Covered Individuals.

AON does not provide services to us other than its advice to the compensation committee on executive and director compensation matters. The compensation committee determined AON to be independent under Nasdaq and SEC regulations.

Each of our non-employee directors receives cash compensation for his or her services. The compensation committee periodically conducts reviews of peer company director compensation practices, including before considering changes to our director compensation policy and amounts. In addition, to better align the interests of our Board with our stockholders, the compensation committee considers and recommends to the Board long-term equity compensation.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FEES**

The Audit Committee works with our management in order to negotiate appropriate fees with EisnerAmper LLP, our independent registered public accounting firm, and is ultimately responsible for approving those fees. The following is a summary and description of fees for services provided by Ernst & Young LLP, our former independent registered public accounting firm, in 2021 and 2020.

Service	2021	2020
Audit Fees	\$ 782,720	\$ 899,292
Audit-Related Fees	—	—
Tax Fees	9,448	9,158
All Other Fees	—	1,945
Total	\$ 792,168	\$ 910,395

“**Audit fees**” include fees incurred for: (i) professional services rendered for the audit of our annual financial statements; (ii) the review of quarterly financial statements, (iii) issuance of consents associated with the filing of registration statements; (iv) delivery of auditor comfort letters, and (v) a statutory audit.

“**Audit-related fees**” include assurance and related services that were reasonably related to the audit of annual financial statements and reviews of quarterly financial statements, but not reported under Audit Fees.

“**Tax fees**” consisted of all services, except those services specifically related to the audit of the financial statements, performed by the independent registered public accounting firm’s tax personnel, including tax analysis; assisting with coordination of execution of tax-related activities, primarily in the area of corporate development; supporting other tax-related regulatory requirements; and tax compliance and reporting.

“**All other fees**” consisted of those services not captured in the audit, audit-related or tax categories.

The Audit Committee considered whether the provision of all other services by Ernst & Young LLP was compatible with maintaining the independence of Ernst & Young LLP and concluded that Ernst & Young LLP was independent.

AUDIT COMMITTEE PRE-APPROVAL POLICIES AND PROCEDURES

The Audit Committee pre-approves specified audit and non-audit services prior to the engagement of our independent registered public accounting firm. With respect to other audit and non-audit services, the Chairman of the Audit Committee has the authority to approve any additional audit services and permissible non-audit services, provided the Chairman informs the Audit Committee of such approval at its next regularly scheduled meeting. Our Chief Financial Officer, or CFO, monitors the performance of all services rendered by our independent auditors, determines whether such services are within the list of pre-approved services and informs the Audit Committee on a timely basis of any such services.

On an ongoing basis, our CFO, together with our independent registered public accounting firm, is responsible to submit to the Audit Committee all requests for approval of services that require a specific pre-approval. The Audit Committee reviews these requests and advises management and the independent registered public accounting firm if the Audit Committee pre-approves the engagement of the independent auditors for such projects and services. On a periodic basis, management reports to the Audit Committee the actual spending for such projects and services compared to the approved amounts. The Audit Committee may delegate the ability to pre-approve audit and permitted non-audit services to a sub-committee of the Audit Committee, provided that any such pre-approvals are reported at the next Audit Committee meeting.

All such audit and permissible non-audit services were pre-approved in accordance with this policy during the fiscal year ended December 31, 2021.

CHANGE IN INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

As previously disclosed in a Current Report on Form 8-K filed with the SEC on May 11, 2022, on May 10, 2022, we notified Ernst & Young LLP that it was being dismissed as our independent registered public accounting firm effective immediately. The decision to dismiss Ernst & Young LLP as the Company's independent registered public accounting firm was at the direction of and approved by the Audit Committee after a competitive proposal process.

The reports of Ernst & Young LLP on the consolidated financial statements of the Company as of and for the years ended December 31, 2021 and 2020 did not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles, except that the report for the fiscal year ended December 31, 2021 contained an explanatory paragraph expressing substantial doubt as to the Company's ability to continue as a going concern as a result of recurring losses.

During the two fiscal years ended December 31, 2021 and the subsequent interim period through May 10, 2022, there were no (i) disagreements, within the meaning of Item 304(a)(1)(iv) of Regulation S-K promulgated under the Securities Exchange Act of 1934, as amended, or Regulation S-K, and the related instructions thereto, with Ernst & Young LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Ernst & Young LLP, would have caused Ernst & Young LLP to make reference to the subject matter of the disagreements in connection with its reports; or (ii) reportable events within the meaning of Item 304(a)(1)(v) of Regulation S-K and the related instructions thereto.

We provided Ernst & Young LLP with a copy of the disclosures regarding the dismissal reproduced in this Proxy Statement and received a letter from Ernst & Young LLP addressed to the SEC stating that it agreed with the above statements. This letter was filed as an exhibit to the Current Report on Form 8-K filed with the SEC on May 11, 2022.

On May 9, 2022, the Audit Committee approved the appointment of EisnerAmper LLP, or EisnerAmper, as our new independent registered public accounting firm for the fiscal year ending December 31, 2022, effective immediately, subject to completion of EisnerAmper's standard client acceptance procedures and execution of an engagement letter. We notified EisnerAmper on May 10, 2022 that it would be engaged as our independent registered public accounting firm. During our two most recent fiscal years ended December 31, 2021 and 2020, and the subsequent interim period through May 10, 2022, neither we nor anyone acting on our behalf consulted with EisnerAmper regarding any of the matters described in Items 304(a)(2)(i) and (ii) of Regulation S-K.

It is anticipated that a representative of EisnerAmper will attend the annual meeting. Such representative will have an opportunity to make a statement, if he or she desires, and will be available to respond to appropriate questions of stockholders.

Management is primarily responsible for the preparation, presentation, and integrity of the Company's consolidated financial statements, accounting and financial reporting principles, internal controls and procedures designed to ensure compliance with accounting standards, applicable laws and regulations. The Company's independent registered public accounting firm for the fiscal years 2021 and 2020, Ernst & Young LLP, performed an independent audit of the consolidated financial statements and expressed an opinion on the conformity of those consolidated financial statements with generally accepted accounting principles.

The Audit Committee and the chairman of the Audit Committee have met with management during fiscal year 2021 to consider the adequacy of the Company's internal controls, and discussed these matters and the overall scope and plans for the audit of the Company with Ernst & Young LLP. The Audit Committee also discussed with management and Ernst & Young LLP the Company's disclosure controls and procedures.

The Audit Committee has reviewed and discussed management's assessment of the effectiveness of the Company's internal controls and the audited consolidated financial statements contained in the Company's 2021 Annual Report with management. The Audit Committee has discussed with Ernst & Young LLP the matters required to be discussed by Public Company Accounting Oversight Board Auditing Standard No. 1301, "Communication with Audit Committees" and U.S. Securities and Exchange Commission standards. In addition, Ernst & Young LLP has provided the Audit Committee with the written disclosures and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young LLP's communications with the Audit Committee concerning independence, and the Audit Committee has discussed with Ernst & Young LLP its independence.

The Audit Committee also considered whether the independent registered public accounting firm's provision of non-audit services to the Company is compatible with the auditor's independence. The Audit Committee has concluded that the independent registered public accounting firm is independent from the Company and its management. Based on the considerations and discussions referred to above, the Audit Committee recommended to the Board that the audited consolidated financial statements be included in the Company's 2021 Annual Report.

The compensation of our named executive officers generally consists of base salary, annual cash bonus opportunities, long term incentive compensation in the form of equity awards and other benefits, as described below.

EXECUTIVE COMPENSATION (continued)***Base Salary***

The base salary payable to each named executive officer is intended to provide a fixed component of compensation reflecting the named executive officer's skill set, experience, role, responsibilities, and contributions. Effective March 1, 2022, the base salary of Mr. Fraser was increased from \$481,099 to \$557,300, the base salary of Mr. Hamill was increased from \$381,100 to \$401,400, and the base salary of Dr. Simonson was increased from \$419,210 to \$438,100.

Annual Cash Bonus Opportunities

The performance-based cash bonus opportunity for each of our named executive officers is expressed as a percentage of the applicable named executive officer's base salary that can be achieved at a target level by meeting predetermined corporate and individual performance objectives. Each executive's target bonus for the year is set forth in their employment agreements, as may be amended by the compensation committee from time to time. For 2021, our compensation committee and Board determined that each named executive officer's performance bonus should be based principally on contribution towards the achievement of corporate goals. These goals primarily included research and development, financial, and positioning and awareness objectives. The compensation committee established that the 2021 annual target bonus amount for Mr. Fraser be targeted at 50% of his base salary and for Dr. Simonson and Mr. Hamill be targeted at 40% of their respective base salaries. Following a review of 2021 performance, our compensation committee approved bonus payments to Mr. Fraser of \$95,986, to Mr. Hamill of \$83,639, and to Dr. Simonson of \$85,311.

Our Board or compensation committee approves equity grants in its discretion, which have historically been in the form of stock options or restricted stock units, or RSUs.

On January 22, 2021, the compensation committee approved grants of stock options to Messrs. Fraser and Hamill and Dr. Simonson to purchase 286,500, 60,000, and 112,600 shares of our common stock, respectively, each with a per-share exercise price of \$5.44. We also may receive up to \$35.8 million in potential clinical, regulatory and commercial milestone payments and will share in any sublicense income Lee’s (HK) may receive at a rate equal to low double digits. In addition, Lee’s (HK) is responsible for all costs and expenses in and for the licensed territory related to development activities, including a planned AEROSURF Phase 3 clinical program, regulatory activities, and commercialization activities.

We will be eligible to receive tiered royalties based on a percent of Net Sales (as defined in the Asia License Agreement), depending on the product, in the range of high single to low-to-mid double-digit percentages. Royalties are payable on a country-by-country basis until the latest of (i) the expiration of the last valid patent claim covering the product in the country of sale, (ii) the expiration or revocation of any applicable regulatory exclusivity in the country of sale, and (iii) ten (10) years after the first commercial sale in the country of sale. Thereafter, in consideration of licensed rights other than patent rights, royalties shall continue for the commercial life of each product and, for the initial three years, shall be in the range of low-to-mid single digits. In addition, in the event that one or more generic products are introduced, the royalty rates will be reduced, subject to certain minimums if we are subject to continuing obligations at the time to pay royalties under our in-license agreements.

EXECUTIVE COMPENSATION (continued)

Under the Asia License Agreement, Lee's (HK) is responsible for all activities related to development, regulatory approval and commercialization of KL4 surfactant and drug/medical device combination products in the licensed territory. Lee's (HK) will hold the product licenses for all non-aerosolized products in the licensed territory and will seek regulatory approval initially for SURFAXIN and SURFAXIN LS for RDS. We will hold the product license in the licensed territory (except where prohibited by law) for all aerosolized products and will designate Lee's (HK) our exclusive agent and representative to develop and register AEROSURF and other aerosolized products in our name and on our behalf. Lee's (HK) also has agreed that, except as provided in the Asia License Agreement, for a period of ten (10) years beginning with the later of the first commercial sale of the first aerosolized product and the first commercial sale of the first non-aerosolized product in China, it will not develop, register, manufacture, or commercialize any product for the prevention and/or treatment of RDS in premature infants or other diseases and conditions in humans, in either case, that administers, utilizes or contains pulmonary surfactant without our prior written consent.

March 2020 Term Sheet

On March 18, 2020, we entered into the Term Sheet with Lee's (HK) pursuant to which Lee's (HK) agreed to provide financing to fund the development of AEROSURF for the period April 1, 2020 through September 30, 2020 and make payments of up to \$3.9 million (which was reduced to \$2.8 million under specified circumstances) prior to September 1, 2020. In August 2020, we entered into the PF Agreement (as defined below) with Lee's (HK), formalizing the terms of the Term Sheet, and under which we received payments totaling \$2.8 million through October 2020.

Project Financing Agreement

In August 2020, we entered into a Project Financing Agreement with Lee's (HK), or the PF Agreement, dated and effective as of August 12, 2020, under which we received payments totaling \$2.8 million through October 2020. Pursuant to the PF Agreement, Lee's (HK) agreed to pay additional amounts to be set forth in an updated development budget to be agreed between the parties by September 1, 2020 and updated every six months thereafter, to fund the continued development of AEROSURF and to be paid with the payment schedule to be set forth in each updated development budget. In partial satisfaction of our obligations under the PF Agreement, we agreed to pay Lee's (HK) 50% of any Commercialization Net Revenues (as defined in the PF Agreement) up to an amount that is equal to 125% of the Project Expenses (as defined in the PF Agreement) funded by Lee's (HK). On November 12, 2020, Lee's (HK) provided notice of termination of additional funding under the PF Agreement, and we and Lee's (HK) revised our plans for the continued development of AEROSURF. Lee's (HK) agreed to continue the development of AEROSURF in Asia at its own cost. Lee's (HK) agreed to fund an additional \$1.0 million to us in 2021 for certain transition and analytical services to be provided by us with respect to the development of AEROSURF, which will be considered "Project Expenses" under the terms of the PF Agreement. In 2021, we received payments totaling \$1.0 million from Lee's (HK) and no further amounts are due under the PF Agreement as of December 31, 2021.

With the termination of the PF Agreement in November 2020, we ceased enrollment in our Phase 2b bridging study at the European Union, or EU, clinical sites and are transferring AEROSURF development activities to Lee's (HK) to be implemented under the terms of our Asia License Agreement. Since the 2018 acquisition of CVie Investments Limited and its wholly owned subsidiary CVie Therapeutics Limited, istaroxime has become our primary focus for investment and execution due to what we believe represents a greater potential value opportunity for us and our stockholders. Since completing our Phase 2 study of lucinactant (KL4 surfactant) for patients with severe COVID-19 associated acute respiratory distress syndrome and lung injury in January 2022, in order to preserve resources for the highest priority programs, we have begun to reduce costs not already transferred to our licensee in Asia, Lee's (HK), under the terms of our Asia License Agreement. These costs include certain reductions in headcount dedicated to KL4 surfactant and the decommissioning of both our analytical and technical support laboratory, which previously conducted release testing of APIs and supportive research for our lyophilized and aerosolized KL4 surfactant, and our medical device development laboratory, which was previously used to conduct development activities and testing for our ADS technologies. To support the future development of our KL4 surfactant platform in markets outside of Asia, including the U.S., we are pursuing one or more licensing transactions.

Other Arrangements

During 2020, we incurred \$0.2 million in research and development expenses for services provided by an affiliate of Lee's Holdings to our wholly owned subsidiary, CVie Therapeutics.

On December 31, 2021, we entered into a Master Manufacturing and Supply Agreement with an affiliate of Lee's Holdings for the manufacture of our istaroxime drug product candidate.

Panacea Venture

As of December 31, 2021 and 2020, Panacea Venture's, or Panacea's, beneficial ownership of our issued and outstanding shares of common stock was 8% and 14%, respectively. James Huang, who in connection with the CVie Acquisition in December 2018 was appointed as a director and Chairman of our Board, is a founding and Managing Partner to Panacea. In May 2020, we completed a public offering of an aggregate of 2,758,620 units with each unit consisting of one share of our common stock and a warrant, or the May 2020 Offering. The offering price to the public was \$7.25 per unit. After deducting underwriting discounts and commissions and offering expenses of \$2.8 million, the net proceeds to us were approximately \$20.2 million. Panacea invested \$2.0 million in the May 2020 Offering.

Other Transactions

We have granted stock options to our named executive officers and certain of our directors. See "*Executive Compensation—Outstanding Equity Awards at Fiscal Year-End*" for a description of these stock options.

We have entered into change of control and severance agreements with certain of our executive officers that provide for certain severance and change in control benefits. See "*Executive Compensation—Employment Agreements.*"

Indemnification Agreements

We have entered into indemnification agreements with each of our directors and executive officers. The indemnification agreements, our Charter and our Bylaws require us to indemnify directors to the fullest extent permitted by Delaware law.

ITEMS TO BE VOTED ON

ITEM 1: ELECTION OF DIRECTORS

At the Annual Meeting, our stockholders will vote on the election of five director nominees named in this Proxy Statement as directors, each to serve until our 2023 Annual Meeting of Stockholders and until their respective successors are elected and qualified. Our Board has unanimously nominated Craig E. Fraser, James Huang, Daniel Geffken, Robert Scott, M.D. and Leslie J. Williams for election to our Board at the Annual Meeting.

Each of the nominees has agreed to be named and to serve, and we expect each nominee to be able to serve if elected. If any nominee is unable to serve, the Governance Committee will recommend to our Board a replacement nominee. The Board may then designate the other nominee to stand for election. If you voted for the unavailable nominee, your vote will be cast for his or her replacement.

OUR BOARD UNANIMOUSLY RECOMMENDS STOCKHOLDERS VOTE **FOR** THE
ELECTION OF OUR FIVE DIRECTOR NOMINEES.

ITEM 2: ADVISORY VOTE TO APPROVE THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and Section 14A of the Exchange Act, we are conducting a stockholder advisory vote on the compensation paid to our named executive officers. This proposal, commonly known as “say-on-pay,” gives our stockholders the opportunity to express their views on our named executive officers’ compensation. The vote is advisory, and, therefore, it is not binding on the Board, the Compensation Committee, or the Company. Nevertheless, the Compensation Committee will take into account the outcome of the vote when considering future executive compensation decisions. We currently intend to conduct this advisory vote annually.

Our executive compensation program is designed to attract, motivate and retain our named executive officers who are critical to our success. Our Board believes that our executive compensation program is well tailored to retain and motivate key executives while recognizing the need to align our executive compensation program with the interests of our stockholders and our “pay-for-performance” philosophy. Our Compensation Committee continually reviews the compensation programs for our named executive officers to ensure they achieve the desired goals of aligning our executive compensation structure with our stockholders’ interests and current market practices.

We encourage our stockholders to read the “*Summary Compensation Table*” and other related compensation tables and narrative disclosures, which describe the 2021 compensation of our named executive officers.

We are asking our stockholders to indicate their support for the compensation of our named executive officers as described herein. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and our executive compensation philosophy, programs, and practices as described in this Proxy Statement.

OUR BOARD UNANIMOUSLY RECOMMENDS STOCKHOLDERS VOTE FOR THE APPROVAL OF, ON AN ADVISORY BASIS, THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AT THE ANNUAL MEETING

ITEMS TO BE VOTED ON *(continued)*

ITEM 3: RATIFICATION OF APPOINTMENT OF EISNERAMPER LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2022

The Audit Committee of the Board has appointed and engaged EisnerAmper LLP to serve as our independent registered public accounting firm to audit the consolidated financial statements of the Company and its subsidiaries for the 2022 fiscal year, and to perform audit-related services. EisnerAmper LLP has served as our independent registered public accounting firm since 2022.

Stockholders are hereby asked to ratify the Audit Committee's appointment of EisnerAmper LLP as our independent registered public accounting firm for the 2022 fiscal year.

The Audit Committee is solely responsible for selecting our independent auditors. Although stockholder ratification of the appointment of EisnerAmper LLP to serve as our independent registered public accounting firm is not required by law or our organizational documents, the Board has determined that it is desirable to seek stockholders ratification as a matter of good corporate governance in view of the critical role played by independent registered public accounting firms in maintaining the integrity of financial controls and reporting. If the stockholders do not ratify the appointment of EisnerAmper LLP, the Audit Committee will reconsider its selection and whether to engage an alternative independent registered public accounting firm.

Representatives of EisnerAmper LLP are expected to virtually attend the Annual Meeting where they will be available to respond to appropriate questions and, if they desire, to make a statement.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE **FOR** THE RATIFICATION OF EISNERAMPER LLP AS INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE COMPANY FOR THE FISCAL YEAR ENDING DECEMBER 31, 2022.
