We are pleased to invite you to attend a Special Meeting of Stockholders (the “Special Meeting”), of Windtree Therapeutics, Inc. (“Windtree” or the “Company”), which will be held virtually at , Eastern Time, on December 22, 2022 for the following purposes:

1. to approve an amendment to our Amended and Restated Certificate of Incorporation, as amended (the “Charter”), to effect a reverse stock split of our outstanding shares of common stock, par value \$0.001 per share (“Common Stock”) by a ratio of any whole number between 1-for and 1-for , the implementation and timing of which shall be subject to the discretion of our Board of Directors (the “Board”); and
2. to approve adjournment of the Special Meeting to the extent there are insufficient votes at the Special Meeting to approve the preceding proposal.

The Special Meeting can be accessed via the Internet at: . This Proxy Statement (as defined below) and enclosed proxy card are first being mailed to stockholders on or about , 2022.

Details regarding admission to the Special Meeting and the business to be conducted are more fully described in the accompanying Notice of 2022 Special Meeting of Stockholders, (the “Notice”), and 2022 Special Meeting Proxy Statement (the “Proxy Statement”). You are entitled to vote at our Special Meeting and any adjournments thereof only if you were a stockholder as of December 2, 2022. As a result of the dividend of the shares of Series A Preferred Stock, par value \$0.001 per share (“Series A Preferred Stock”) distributed on December 2, 2022, each holder of shares of our Common Stock also holds a number of one one-thousandths of a share of our Series A Preferred Stock equal to the whole number of shares of Common Stock held by such holder. Because any one one-thousandths of a share of Series A Preferred Stock that are not present in person or by proxy at the Special Meeting as of immediately prior to the opening of the polls at the Special Meeting will be automatically redeemed, if you fail to submit a proxy to vote your shares or attend the Special Meeting in order to do so, your shares of Series A Preferred Stock will be redeemed immediately prior to the opening of the polls at the Special Meeting and will not be entitled to vote at the Special Meeting.

Your vote is important. Whether or not you plan to virtually attend the Special Meeting, we hope you will vote as soon as possible. Information about voting methods is set forth in the accompanying Notice and Proxy Statement. If you have any questions regarding the attached proxy statement or need assistance in voting your shares of Common Stock or Series A Preferred Stock, please contact our Senior Vice President, Chief Financial Officer and Corporate Secretary, John P. This Proxy Statement and the proxy card are being mailed to our stockholders on or about _____, 2022. This Proxy Statement is available to stockholders at _____.

STOCKHOLDERS ENTITLED TO VOTE

Stockholders of record, including holders of our common stock, par value \$0.001 per share (“Common Stock”), and holders of our Series A Preferred Stock (“Series A Preferred Stock”), at the close of business on December 2, 2022 (the “Record Date”) may vote at the Special Meeting. Notwithstanding the foregoing, holders of outstanding shares of Series A Preferred Stock will only be entitled to vote such shares to the extent that such shares have not been automatically redeemed in the Initial Redemption (as defined below). There were _____ shares of Common Stock and _____ shares of Series A Preferred Stock outstanding on the Record Date.

Pursuant to the rights of our stockholders contained in our governing documents, each share of our Common Stock is entitled to one vote on all matters listed in this proxy statement. As previously announced on November 18, 2022, the Board declared a dividend of one one-thousandth (1/1,000th) of a share of Series A Preferred Stock for each outstanding share of Common Stock to stockholders of record of Common Stock as of 5:00 p.m. Eastern Time on November 28, 2022. The holders of Series A Preferred Stock have 1,000,000 votes per whole share of Series A Preferred Stock (i.e., 1,000 votes per one one-thousandth of a share of Series A Preferred Stock) and are entitled to vote with the Common Stock, together as a single class, on the Reverse Stock Split Proposal and Adjournment Proposal, but are not otherwise entitled to vote on the other proposals, if any, to be presented at the Special Meeting. Notwithstanding the foregoing, each share of Series A Preferred Stock redeemed pursuant to the Initial Redemption will have no voting power with respect to the Reverse Stock Split Proposal, the Adjournment Proposal or any other matter. Unless otherwise provided on any applicable proxy or ballot with respect to the voting on the Reverse Stock Split Proposal or the Adjournment Proposal, when a holder of Common Stock submits a vote on the Reverse Stock Split Proposal and the Adjournment Proposal, the corresponding number of shares of Series A Preferred Stock (or fraction thereof) held by such holder will be automatically cast in the same manner as the vote of the share of Common Stock (or fraction thereof) in respect of which such share of Series A Preferred Stock (or fraction thereof) was issued as a dividend is cast on the Reverse Stock Split Proposal, the Adjournment Proposal or such other matter, as applicable, and the proxy or ballot with respect to shares of Common Stock held by any holder on whose behalf such proxy or ballot is submitted will be deemed to include all shares of Series A Preferred Stock (or fraction thereof) held by such holder. Holders of Series A Preferred Stock will not receive a separate ballot or proxy to cast votes with respect to the Series A Preferred Stock on the Reverse Stock Split Proposal, the Adjournment Proposal or any other matter brought before the Special Meeting. For example, if a stockholder holds 10 shares of Common Stock (entitled to one vote per share) and votes in favor of the Reverse Stock Split Proposal, then 10,010 votes will be recorded in favor of the Reverse Stock Split Proposal, because the stockholder’s shares of Series A Preferred Stock will automatically be voted in favor of the Reverse Stock Split Proposal alongside such stockholder’s shares of Common Stock.

All shares of Series A Preferred Stock that are not present in person or by proxy at the Special Meeting as of immediately prior to the opening of the polls at the Special Meeting will be automatically redeemed (the “Initial Redemption”). Any outstanding shares of Series A Preferred Stock that have not been redeemed pursuant to the Initial Redemption will be redeemed in whole, but not in part, (i) if and when ordered by our Board or (ii) automatically upon the approval by the Company’s stockholders of the Reverse Stock Split Proposal at any meeting of the stockholders held for the purpose of voting on such proposal.

HOW YOUR SHARES WILL BE VOTED

In each case, your shares will be voted as you instruct. Unless otherwise provided on any applicable proxy or ballot with respect to the voting on the Reverse Stock Split Proposal or the Adjournment Proposal, when a holder of Common Stock submits a vote on the Reverse Stock Split Proposal and the Adjournment Proposal, the corresponding number of shares of Series A Preferred Stock (or fraction thereof) held by such holder will be automatically cast in the same manner as the vote of the share of Common Stock (or fraction thereof) in respect of which such share of Series A Preferred Stock (or fraction thereof) was issued as a dividend is cast on the Reverse Stock Split Proposal, or the Adjournment Proposal, and the proxy or ballot with respect to shares of Common Stock held by any holder on whose behalf such proxy or ballot is submitted will be deemed to include all shares of Series A Preferred Stock (or fraction thereof) held by such holder. If you return a signed card, but do not provide voting instructions, your shares will be voted **FOR** each of the proposals. If you are the record holder of your shares, you may revoke or change your vote any time before the proxy is exercised. To do so, you must do one of the following:

- Vote over the Internet or by telephone as instructed above. Only your latest Internet or telephone vote is counted. You may not revoke or change your vote over the Internet or by telephone after 11:59 p.m., Eastern Time, on December 21, 2022.

GENERAL INFORMATION ABOUT THE MEETING

BROKER VOTING AND VOTES REQUIRED FOR EACH PROPOSAL

If your shares are held in a stock brokerage account or by a bank or other holder of record, you are considered the “beneficial owner” of shares held in street name. The Notice of 2022 Special Meeting of Stockholders, (the “Notice”), has been forwarded to you by your broker, bank or other holder of record who is considered the stockholder of record of those shares. As the beneficial owner, you may direct your broker, bank or other holder of record on how to vote your shares by using the proxy card included in the materials made available or by following their instructions for voting on the Internet.

The following table summarizes how abstentions are treated with respect to our proposals:

PROPOSAL	VOTES REQUIRED	TREATMENT OF ABSTENTIONS	BROKER DISCRETIONARY VOTING
Proposal 1: Approval of an amendment to the Charter to effect a reverse stock split of our outstanding shares of Common Stock by a ratio of any whole number between 1-for and 1-for- , the implementation and timing of which shall be subject to the discretion of the Board	Affirmative vote of the majority of voting power of the outstanding shares of capital stock entitled to vote	Abstentions will be treated as a vote “against” such proposal	Yes
Proposal 2: Approval of adjournment of the Special Meeting to the extent there are insufficient votes at the Special Meeting to approve the preceding proposal	Majority of the votes cast	Abstentions will not be taken into account in determining the outcome of the proposal	Yes

Proposal One: *Approval of an amendment to the Charter to effect a reverse stock split of our outstanding shares of Common Stock by a ratio of any whole number between 1-for and 1-for- , the implementation and timing of which shall be subject to the discretion of the Board.* The approval of the amendment to the Charter to effect a reverse stock split requires the affirmative votes of a majority of the combined voting power of the outstanding shares of Common Stock and Series A Preferred Stock, voting together as a single class, present in person or represented by proxy and entitled to vote on the proposal. The holders of Common Stock have the right to cast one (1) vote per share of Common Stock on this proposal. The holders of Series A Preferred Stock have the right to cast 1,000,000 votes per whole share of Series A Preferred Stock on this proposal.

Proposal Two: *Adjournment.* The approval of the adjournment requires the affirmative vote of a majority of the votes cast by all stockholders present in person or represented by proxy at the Special Meeting and entitled to vote on the proposal.

GENERAL INFORMATION ABOUT THE MEETING

QUORUM

We must have a quorum to conduct business at the Special Meeting. A quorum consists of the presence at the Special Meeting either attending the meeting virtually or represented by proxy of the holders of one-third (1/3) of the votes stockholders are entitled to cast at the Special Meeting. Shares of Series A Preferred Stock that are automatically redeemed in the Initial Redemption will not be counted towards the presence of a quorum or as part of the issued and outstanding shares of capital stock of the Company entitled to vote at our Special Meeting for purposes of determining the presence of a quorum. For the purpose of establishing a quorum, broker non-votes and abstentions, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, are considered stockholders who are present and entitled to vote, and count toward the quorum. If there is no quorum, the holders of a majority of voting power virtually attending the Special Meeting or represented by proxy, or if no stockholder entitled to vote is present, then the chairman of the meeting, as determined by our Amended and Restated By-laws (the "Bylaws"), may adjourn the Special Meeting to another date.

PROXY SOLICITATION COSTS

We pay the cost of soliciting proxies. Proxies will be solicited on behalf of the Board by mail, telephone and other electronic means or in person. Directors and employees will not be paid any additional compensation for soliciting proxies. We may also reimburse brokerage firms, banks and other agents for the cost of forwarding proxy materials to beneficial owners.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding the beneficial ownership of Common Stock as of November 14, 2022 by (a) each person known by us to be the beneficial owner of more than 5% of the outstanding shares of Common Stock, (b) each named executive officer of the Company, (c) each director of the Company, and (d) all executive officers and directors as a group.

The percentage of Common Stock outstanding is based on 38,610,119 shares of our Common Stock outstanding as of November 14, 2022, and the percentage of Series A Preferred Stock outstanding is based on shares of Series A Preferred Stock to be issued on December 2, 2022. For purposes of the table below, and in accordance with the rules of the Securities and Exchange Commission (the "SEC"), we deem shares of Common Stock subject to options and warrants that are currently exercisable or exercisable within sixty days of November 14, 2022 to be outstanding and to be beneficially owned by the person holding the options or warrants for the purpose of computing the percentage ownership of that person, but we do not treat them as outstanding for the purpose of computing the percentage ownership of any other person. Except as otherwise noted, each of the persons or entities in this table has sole voting and investing power with respect to all of the shares of Common Stock beneficially owned by them, subject to community property laws, where applicable. Except as otherwise noted below, the street address of each beneficial owner is c/o Windtree Therapeutics, Inc., 2600 Kelly Road, Suite 100, Warrington, Pennsylvania 18976.

ITEMS TO BE VOTED ON

ITEM 1: APPROVAL OF AN AMENDMENT TO THE CHARTER TO EFFECT A REVERSE STOCK SPLIT OF OUR OUTSTANDING SHARES OF COMMON STOCK BY A RATIO OF ANY WHOLE NUMBER BETWEEN 1-FOR AND 1-FOR- , THE IMPLEMENTATION AND TIMING OF WHICH SHALL BE SUBJECT TO THE DISCRETION OF THE BOARD

We are seeking stockholder approval to grant the Board discretionary authority to amend the Charter to effect a reverse stock split of our outstanding shares of Common Stock by a ratio of any whole number between 1-for and 1-for- (the “Reverse Split”).

The Reverse Split will not change the number of authorized shares of Common Stock or Series A Preferred Stock or the relative voting power of such holders of our outstanding Common Stock and Series A Preferred Stock. The number of authorized but unissued shares of our Common Stock will materially increase and will be available for reissuance by the Company. The Reverse Split, if effected, would affect all of our stockholders uniformly.

The Board unanimously approved, and recommended seeking stockholder approval of the Reverse Split, on November 22, 2022. If this Reverse Split is approved by the stockholders, the Board will have the authority, in its sole discretion, without further action by the stockholders, to effect the Reverse Split. The Board’s decision as to whether and when to effect the Reverse Split, if approved by the stockholders, will be based on a number of factors, including prevailing market conditions, existing and expected trading prices for our Common Stock, actual or forecasted results of operations, and the likely effect of such results on the market price of our Common Stock.

The Reverse Split will also affect our outstanding stock options, restricted stock units and shares of Common Stock, including those issued under our 2011 and 2020 equity incentive plan, or as inducement grants under Nasdaq rules, as well as our outstanding warrants. Under these plans and securities, the number of shares of Common Stock deliverable upon exercise or grant must be appropriately adjusted and appropriate adjustments must be made to the purchase price per share to reflect the Reverse Split.

The Reverse Split is not being proposed in response to any effort of which we are aware to accumulate our shares of Common Stock or obtain control of the Company, nor is it a plan by management to recommend a series of similar actions to the Board or our stockholders.

There are certain risks associated with a reverse stock split, and we cannot accurately predict or assure the Reverse Split will produce or maintain the desired results (for more information on the risks see the section below entitled “Certain Risks Associated with a Reverse Stock Split”). The Board believes that the benefits to the Company outweigh the risks and recommends that you vote in favor of granting the Board the discretionary authority to effect the Reverse Split.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE **FOR THE APPROVAL OF AN AMENDMENT TO THE CHARTER TO EFFECT A REVERSE STOCK SPLIT OF OUR OUTSTANDING SHARES OF COMMON STOCK BY A RATIO OF ANY WHOLE NUMBER BETWEEN 1-FOR AND 1-FOR- , THE IMPLEMENTATION AND TIMING OF WHICH SHALL BE SUBJECT TO THE DISCRETION OF THE BOARD**

Reasons for the Reverse Stock Split

The Board believes that effecting the Reverse Split would increase the price of our Common Stock which would, among other things, help us to:

- Meet certain continued listing requirements of the Nasdaq Capital Market;
 - Appeal to a broader range of investors to generate greater interest in the Company; and
 - Improve perception of our Common Stock as an investment security.
-

Meet Listing Requirements – Our Common Stock is listed on the Nasdaq Capital Market under the symbol WINT. On June 3, 2022, we received a deficiency letter from the Nasdaq Listing Qualifications Department of the Nasdaq Stock Market LLC (“Nasdaq”), notifying us that, for the last 30 consecutive business days, the closing bid price for our Common Stock was below the minimum \$1.00 per share required for continued listing on the Nasdaq Capital Market pursuant to Nasdaq Listing Rule 5550(a)(2) (“Rule 5550(a)(2)”). In accordance with Nasdaq Listing Rule 5810(c)(3)(A), we were given 180 calendar days, or until November 30, 2022, to regain compliance with Rule 5550(a)(2). If at any time before November 30, 2022, the bid price of our Common Stock closes at \$1.00 per share or more for a minimum of 10 consecutive business days, Nasdaq will provide written confirmation that the Company has achieved compliance. If we do not regain compliance with Rule 5550(a)(2) by November 30, 2022, we may be afforded a second 180 calendar day period to regain compliance and intend to request such additional compliance period. Although we believe that implementing the Reverse Split is likely to lead to compliance with the Rule 5550(a)(2), there can be no assurance that the closing share price after implementation of the Reverse Split will succeed in restoring such compliance.

Appeal to a Broader Range of Investors to Generate Greater Investor Interest in the Company – An increase in our stock price may make our Common Stock more attractive to investors. Brokerage firms may be reluctant to recommend lower-priced securities to their clients. Many institutional investors have policies prohibiting them from holding lower-priced stocks in their portfolios, which reduces the number of potential purchasers of our Common Stock. Investment funds may also be reluctant to invest in lower-priced stocks. Investors may also be dissuaded from purchasing lower-priced stocks because the brokerage commissions, as a percentage of the total transaction, tend to be higher for such stocks. Moreover, the analysts at many brokerage firms do not monitor the trading activity or otherwise provide coverage of lower-priced stocks. Giving the Board the ability to effect the Reverse Split, and thereby increase the price of our Common Stock, would give the Board the ability to address these issues if it is deemed necessary.

Improve the Perception of Our Common Stock as an Investment Security – The Board believes that effecting the Reverse Split is one potential means of increasing the share price of our Common Stock to improve the perception of our Common Stock as a viable investment security. Lower-priced stocks have a perception in the investment community as being risky and speculative, which may negatively impact not only the price of our Common Stock, but also our market liquidity.

Certain Risks Associated with the Reverse Split

The Reverse Split May Not Increase the Price of our Common Stock over the Long-Term – As noted above, the principal purpose of the Reverse Split is to increase the trading price of our Common Stock to meet the minimum stock price standards of Nasdaq. However, the effect of the Reverse Split on the market price of our Common Stock cannot be predicted with any certainty, and we cannot assure you that the Reverse Split will accomplish this objective for any meaningful period of time, or at all. While we expect that the reduction in the number of outstanding shares of Common Stock will proportionally increase the market price of our Common Stock, we cannot assure you that the Reverse Split will increase the market price of our Common Stock by a multiple of the Reverse Split ratio, or result in any permanent or sustained increase in the market price of our Common Stock. The market price of our Common Stock may be affected by other factors which may be unrelated to the number of shares outstanding, including the Company’s business and financial performance, general market conditions, and prospects for future success.

The Reverse Split May Decrease the Liquidity of our Common Stock – The Board believes that the Reverse Split may result in an increase in the market price of our Common Stock, which could lead to increased interest in our Common Stock and possibly promote greater liquidity for our stockholders. However, the Reverse Split will also reduce the total number of outstanding shares of Common Stock, which may lead to reduced trading and a smaller number of market makers for our Common Stock, particularly if the price per share of our Common Stock does not increase as a result of the Reverse Split.

The Reverse Split May Result in Some Stockholders Owning “Odd Lots” That May Be More Difficult to Sell or Require Greater Transaction Costs per Share to Sell – If the Reverse Split is implemented, it will increase the number of stockholders who own “odd lots” of less than 100 shares of Common Stock. A purchase or sale of less than 100 shares of Common Stock (an “odd lot” transaction) may result in incrementally higher trading costs through certain brokers, particularly “full service” brokers.

Therefore, those stockholders who own fewer than 100 shares of Common Stock following the Reverse Split may be required to pay higher transaction costs if they sell their Common Stock.

The Reverse Split May Lead to a Decrease in our Overall Market Capitalization – The Reverse Split may be viewed negatively by the market and, consequently, could lead to a decrease in our overall market capitalization. If the per share market price of our Common Stock does not increase in proportion to the Reverse Split ratio, or following such increase does not maintain or exceed such price, then the value of our Company, as measured by our market capitalization, will be reduced. Additionally, any reduction in our market capitalization may be magnified as a result of the smaller number of total shares of Common Stock outstanding following the Reverse Split.

Determination of the Reverse Stock Split Ratio

The Board believes that stockholder approval of a range of potential Reverse Split ratios is in the best interests of our Company and stockholders because it is not possible to predict market conditions at the time the Reverse Split would be implemented. We believe that a range of Reverse Split ratios provides us with the most flexibility to achieve the desired results of the Reverse Split. The Reverse Split ratio to be selected by our Board will be not more than .

The selection of the specific Reverse Split ratio will be based on several factors, including, among other things:

- our ability to maintain the listing of our Common Stock on The Nasdaq Capital Market;
- the per share price of our Common Stock immediately prior to the Reverse Split;
- the expected stability of the per share price of our Common Stock following the Reverse Split;
- the likelihood that the Reverse Split will result in increased marketability and liquidity of our Common Stock;
- prevailing market conditions;
- general economic conditions in our industry; and
- our market capitalization before and after the Reverse Split.

We believe that granting our Board the authority to set the ratio for the Reverse Split is essential because it allows us to take these factors into consideration and to react to changing market conditions. If the Board chooses to implement the Reverse Split, the Company will make a public announcement regarding the determination of the Reverse Split ratio.

Effects of the Reverse Split

If our stockholders approve the proposed Reverse Split and the Board elects to effect the Reverse Split, our issued and outstanding shares of Common Stock, for example, would decrease at a rate of approximately one (1) share of Common Stock for every ten (10) shares of Common Stock currently outstanding in a one-for-ten split. The Reverse Split would be effected simultaneously for all of our Common Stock, and the exchange ratio would be the same for all shares of Common Stock. The Reverse Split would affect all of our stockholders uniformly and would not affect any stockholders’ percentage ownership interests in the Company, except to the extent that it results in a stockholder receiving cash in lieu of fractional shares. The Reverse Split would not affect the relative voting or other rights that accompany the shares of our Common Stock, except to the extent that it results in a stockholder receiving cash in lieu of fractional shares. Common Stock issued pursuant to the Reverse Split would remain fully paid and non-assessable. The Reverse Split would not affect our securities law reporting and disclosure obligations, and we would continue to be subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended.

In addition to the change in the number of shares of Common Stock outstanding, the Reverse Split would have the following effects:

Increase the Per Share Price of our Common Stock – By effectively condensing a number of pre-split shares into one share of Common Stock, the per share price of a post-split share is generally greater than the per share price of a pre-split share. The amount of the initial increase in per share price and the duration of such increase, however, is uncertain. The Board may utilize the Reverse Split as part of its plan to maintain the required minimum per share price of the Common Stock under the Nasdaq listing standards.

Increase in the Number of Shares of Common Stock Available for Future Issuance – By reducing the number of shares outstanding without reducing the number of shares of available but unissued Common Stock, the Reverse Split will increase the number of authorized but unissued shares. The Board believes the increase is appropriate for use to fund the future operations of the Company. Although the Company does not have any pending acquisitions for which shares are expected to be used, the Company may also use authorized shares in connection with the financing of future acquisitions.

The following table contains approximate information relating to our Common Stock, based on share information as of November 14, 2022:

	Current	After the Reverse Split if the Minimum : Ratio is Selected	After the Reverse Split if the Maximum : Ratio is Selected
Authorized common stock	120,000,000	120,000,000	120,000,000
Common stock issued and outstanding	38,610,119		
Warrants to purchase common stock outstanding	16,546,336		
Common stock issuable upon exercise of outstanding stock options, and settlement of restricted stock units	4,441,269		
Common stock reserved for issuance for future grants under 2011 and 2020 equity incentive plans	584,089		
Treasury stock issued	24		
Common stock authorized but unissued and unreserved/unallocated	59,818,163		
Authorized Preferred Stock	5,000,000	5,000,000	5,000,000

Although the Reverse Split would not have any dilutive effect on our stockholders, the Reverse Split without a reduction in the number of shares authorized for issuance would reduce the proportion of shares owned by our stockholders relative to the number of shares authorized for issuance, giving the Board an effective increase in the authorized shares available for issuance, in its discretion. The Board from time to time may deem it to be in the best interests of the Company to enter into transactions and other ventures that may include the issuance of shares of our Common Stock. If the Board authorizes the issuance of additional shares subsequent to the Reverse Split, the dilution to the ownership interest of our existing stockholders may be greater than would occur had the Reverse Split not been effected.

Require Adjustment to Currently Outstanding Securities Exercisable or Convertible into Shares of our Common Stock – The Reverse Split would effect a reduction in the number of shares of Common Stock issuable upon the exercise or conversion of our outstanding stock options, settlement of restricted stock units and exercise of our outstanding warrants in proportion to the reverse stock split ratio. The exercise price of outstanding options and warrants would increase, likewise in proportion to the reverse stock split ratio.

Require Adjustment to the Number of Shares of Common Stock Available for Future Issuance Under our 2011 and 2020 equity incentive plans – In connection with any reverse stock split, the Board would also make a corresponding reduction in the number of shares available for future issuance under the foregoing plan so as to avoid the effect of increasing the number of authorized but unissued shares available for future issuance under such plans.

Procedure for Effecting Reverse Stock Split

If the Reverse Split is approved by our stockholders, the Board, in its sole discretion, would determine whether to implement the Reverse Split, taking into consideration the factors discussed above, and, if implemented, determine the ratio of the Reverse Split. We would then file a Certificate of Amendment amending the Charter with the Secretary of State of the State of Delaware. The form of the Certificate of Amendment is attached to this Proxy Statement as [Appendix A](#) and is considered a part of this Proxy Statement. Upon the filing of the Certificate of Amendment, without any further action on our part or our stockholders, the issued shares of Common Stock held by stockholders of record as of the effective date of the Reverse Split would be converted into a lesser number of shares of Common Stock calculated in accordance with the Reverse Split ratio of any whole number between 1-for- and 1-for- .

Effect on Beneficial Holders (i.e., Stockholders Who Hold in “Street Name”)

If the proposed Reverse Split is approved and effected, we intend to treat Common Stock held by stockholders in “street name,” through a bank, broker or other nominee, in the same manner as stockholders whose shares are registered in their own names. Banks, brokers or other nominees will be instructed to effect the Reverse Split for their customers holding Common Stock in “street name.” However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the Reverse Split. If you hold shares of Common Stock with a bank, broker or other nominee and have any questions in this regard, you are encouraged to contact your bank, broker or other nominee.

Effect on Registered “Book-Entry” Holders (i.e., Stockholders That are Registered on the Transfer Agent’s Books and Records but do not Hold Certificates)

All of our registered holders of Common Stock hold their shares electronically in book-entry form with our transfer agent, Continental Stock Transfer and Trust Company. These stockholders do not have stock certificates evidencing their ownership of Common Stock. They are, however, provided with a statement reflecting the number of shares registered in their accounts. If a stockholder holds registered shares in book-entry form with our transfer agent, no action needs to be taken to receive post-reverse stock split shares or fractional shares, if applicable. If a stockholder is entitled to post-reverse stock split shares, a transaction statement will automatically be sent to the stockholder’s address of record indicating the number of shares (including fractional shares) of Common Stock held following the Reverse Split.

Fractional Shares

No fractional shares will be issued in connection with the Reverse Split. Stockholders of record who otherwise would be entitled to receive fractional shares will be entitled to an amount in cash (without interest or deduction) equal to the fraction of one share to which such stockholder would otherwise be entitled multiplied by the product of: (i) the average of the closing prices of our Common Stock on the Nasdaq Capital Market for the five consecutive trading days immediately preceding the effective date of the Reverse Split and (ii) the reverse stock split factor chosen by the Board. Except for the right to receive the cash payment in lieu of fractional shares, stockholders will not have any voting, dividend or other rights with respect to the fractional shares they would otherwise be entitled to receive.

Stockholders should be aware that, under the escheat laws of the various jurisdictions where stockholders may reside, where we are domiciled, and where the funds will be deposited, sums due for fractional interests that are not timely claimed after the effective date of the Reverse Split may be required to be paid to the designated agent for each such jurisdiction, unless correspondence has been received by us or the exchange agent concerning ownership of such funds within the time permitted in such jurisdiction. Thereafter, stockholders otherwise entitled to receive such funds will have to seek to obtain them directly from the state to which they were paid.

Accounting Matters

The par value of our Common Stock would remain unchanged at \$0.001 per share, if the Reverse Split is effected.

The Company's stockholders' equity in its consolidated balance sheet would not change in total. However, the Company's stated capital (i.e., \$0.001 par value times the number of shares issued and outstanding), would be proportionately reduced based on the reduction in shares of Common Stock outstanding. Additional paid in capital would be increased by an equal amount, which would result in no overall change to the balance of stockholders' equity.

Additionally, net income or loss per share for all periods would increase proportionately as a result of the Reverse Split since there would be a lower number of shares outstanding. We do not anticipate that any other material accounting consequences would arise as a result of the Reverse Split.

Potential Anti-Takeover Effect

Even though the proposed Reverse Split would result in an increased proportion of unissued authorized shares to issued shares, which could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of the Board or contemplating a tender offer or other transaction for the combination of us with another company), the Reverse Split is not being proposed in response to any effort of which we are aware to accumulate shares of our Common Stock or obtain control of us, nor is it part of a plan by management to recommend a series of similar amendments to the Board and our stockholders.

No Appraisal Rights

Our stockholders are not entitled to appraisal rights with respect to the Reverse Split, and we will not independently provide stockholders with any such right.

Federal Income Tax Consequences of a Reverse Stock Split

The following discussion is a summary of certain U.S. federal income tax consequences of the reverse stock split to the Company and to stockholders that hold shares of Common Stock as capital assets for U.S. federal income tax purposes. This discussion is based upon provisions of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), the Treasury regulations promulgated under the Code, and U.S. administrative rulings and court decisions, all as in effect on the date hereof and all of which are subject to change, possibly with retroactive effect, and differing interpretations. Changes in these authorities may cause the U.S. federal income tax consequences of the reverse stock split to vary substantially from the consequences summarized below.

This summary does not address all aspects of U.S. federal income taxation that may be relevant to stockholders in light of their particular circumstances or to stockholders who may be subject to special tax treatment under the Code, including, without limitation, dealers in securities, commodities or foreign currency, persons who are treated as non-U.S. persons for U.S. federal income tax purposes, certain former citizens or long-term residents of the United States, insurance companies, tax-exempt organizations, banks, financial institutions, small business investment companies, regulated investment companies, real estate investment trusts, retirement plans, persons that are partnerships or other pass-through entities for U.S. federal income tax purposes, persons whose functional currency is not the U.S. dollar, traders that mark-to-market their securities, persons subject to the alternative minimum tax, persons who hold their shares of Common Stock as part of a hedge, straddle, conversion or other risk reduction transaction, or who acquired their shares of Common Stock pursuant to the exercise of compensatory stock options, the vesting of previously restricted shares of stock or otherwise as compensation. If a partnership or other entity classified as a partnership for U.S. federal income tax purposes holds shares of Common Stock, the tax treatment of a partner thereof will generally depend upon the status of the partner and upon the activities of the partnership. If you are a partner in a partnership holding shares of the Company's Common Stock, you should consult your tax advisor regarding the tax consequences of the Reverse Split.

The Company has not sought and will not seek an opinion of counsel or a ruling from the Internal Revenue Service (the “IRS”), regarding the federal income tax consequences of the Reverse Split. The state and local tax consequences of the Reverse Split may vary as to each stockholder, depending on the jurisdiction in which such stockholder resides. This discussion should not be considered as tax or investment advice, and the tax consequences of the reverse stock split may not be the same for all stockholders. Stockholders should consult their own tax advisors to know their individual federal, state, local and foreign tax consequences.

Tax Consequences to the Company – We believe that the Reverse Split will constitute a reorganization under Section 368(a)(1)(E) of the Code. Accordingly, we should not recognize taxable income, gain or loss in connection with the Reverse Split. In addition, we do not expect the Reverse Split to affect our ability to utilize our net operating loss carryforwards.

Tax Consequences to Stockholders – Stockholders should not recognize any gain or loss for U.S. federal income tax purposes as a result of the Reverse Split, except to the extent of any cash received in lieu of a fractional share of Common Stock (which fractional share will be treated as received and then exchanged for cash). Each stockholder’s aggregate tax basis in the Common Stock received in the Reverse Split, including any fractional share treated as received and then exchanged for cash, should equal the stockholder’s aggregate tax basis in the Common Stock exchanged in the Reverse Split. In addition, each stockholder’s holding period for the Common Stock it receives in the Reverse Split should include the stockholder’s holding period for the Common Stock exchanged in the Reverse Split.

In general, a stockholder who receives cash in lieu of a fractional share of Common Stock pursuant to the Reverse Split should be treated for U.S. federal income tax purposes as having received a fractional share pursuant to the Reverse Split and then as having received cash in exchange for the fractional share and should generally recognize capital gain or loss equal to the difference between the amount of cash received and the stockholder’s tax basis allocable to the fractional share. Any capital gain or loss will generally be long term capital gain or loss if the stockholder’s holding period in the fractional share is greater than one year as of the effective date of the Reverse Split. Special rules may apply to cause all or a portion of the cash received in lieu of a fractional share to be treated as dividend income with respect to certain stockholders who own more than a minimal amount of Common Stock (generally more than 1%) or who exercise some control over the affairs of the Company. Stockholders should consult their own tax advisors regarding the tax effects to them of receiving cash in lieu of fractional shares based on their particular circumstances.

Interests of Directors and Executive Officers

Our directors and executive officers have no substantial interests, directly or indirectly, in the matters set forth herein regarding the proposed Reverse Split except to the extent of their ownership of shares of our Common Stock.

Reservation of Right to Abandon Reverse Stock Split

We reserve the right to abandon the Reverse Split without further action by our stockholders at any time before the effectiveness of the filing with the Secretary of State of the State of Delaware the Certificate of Amendment to the Charter, even if the authority to effect the Reverse Split has been approved by our stockholders at the Special Meeting. By voting in favor of the Reverse Split, you are expressly also authorizing the Board to delay, not to proceed with, and abandon, the Reverse Split if it should so decide, in its sole discretion, that such action is in the best interests of the Company and its stockholders.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE **FOR** THE APPROVAL OF AN AMENDMENT TO THE CHARTER TO EFFECT A REVERSE STOCK SPLIT OF OUR OUTSTANDING SHARES OF COMMON STOCK BY A RATIO OF ANY WHOLE NUMBER BETWEEN 1-FOR- AND 1-FOR- , THE IMPLEMENTATION AND TIMING OF WHICH SHALL BE SUBJECT TO THE DISCRETION OF THE BOARD

ITEM 2: APPROVAL OF ADJOURNMENT OF THE SPECIAL MEETING TO THE EXTENT THERE ARE INSUFFICIENT VOTES AT THE SPECIAL MEETING TO APPROVE THE PRECEDING PROPOSAL

In the event that the number of shares of Common Stock present virtually or represented by proxy at the Special Meeting and voting “**FOR**” the adoption of the foregoing proposal in this Proxy Statement is insufficient to approve such proposal, we may move to adjourn the Special Meeting in order to enable us to solicit additional proxies in favor of the adoption of such proposal. If the adjournment is for more than thirty (30) days, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the Special Meeting.

For the avoidance of doubt, any proxy authorizing the adjournment of the Special Meeting shall also authorize successive adjournments thereof, at any meeting so adjourned, to the extent necessary for us to solicit additional proxies in favor of the adoption of such proposal.
